ADEC Little Susitna River Turbidity Data SFY09 - SFY11.xlsx

Jill,

Attached is an Excel spreadsheet with tabs at the bottom for the Hach turbidity logger data collected hourly from 2009 – 2011 at the reference site and downstream site(s) on the Little Susitna River. Please let me know if you have questions.

Thanks, Laura

Hi Cindy,

See below for what Gretchen is looking for for the turbidity data. Thanks.

Hi Gretchen,

Can you take a look at Cindy's question about the turbidity data below and let me know what you would like from her? Thanks.

Jill –

Just checking as to where we are at (so I think we are both on the same page)

DEC's follow ups:

Laura sent you a spreadsheet of the Little Susitna River petroleum data for the intensive weekends

We are double checking whether the turbidity data is already in STORET (apparently it is not it is only in AWQMS), **since it is a lot of data**, could you clarify do you want the weekly grab samples or the hourly log data (or both). Which FY years do you want or all FY? We might have to copy onto a disk and mail because of file size.

EPA follow up

Feedback on petroleum listing methodology

Feedback on given petroleum listing methodology, what the Little Susitna River outcome would be

EPA Analysis of the various data sets

Feedback on options for submitting 2012 IR (is an addendum acceptable).

Just so you know, other data has rolled in (Udagak Bay TMDL will be moving to Category 2...-)

Did I miss anything?

Cindy J. Gilder

Manager, Non-Point Source Section
